About the workshop

We all look forward to Spring popping its head around the corner after a long winter. This course is planned to lighten your spirits and bring some Spring colour our way.

As we only have two days, please do not stretch yourself too far with thoughts of creating a large painting. We will be making detailed illustrations of Spring flowers, and you can choose between making a small composition of flowers or individual flower studies. This course will teach you techniques and how to achieve realism with watercolour. Bring along a selection of Spring flowers or choose from my selection.
