COURSE OUTLINE

INTERMEDIATE STANDARD, NOT FOR BEGINNERS

This course is designed to help the botanical artist achieve more realism, good colour temperature transition and perfect your fine detailing when painting. Helpful tuition and guidance with appraisals are given through each lesson.

The course includes detailed course notes which contain useful tips and techniques for you to learn and three lessons full of exercises.

WHAT'S INCLUDED!

- Detailed course notes on how to improve colour, vibrance and depth in a painting. The course also includes colour mixing tips to improve your mixing skills and help you to 'see' tones more easily (based on W&N pigments). Pre-recorded video tutorials in a dedicated hidden Facebook group.
- Lesson 1: Perfect your brush and fine detail techniques practising some exercises.
- Lesson 2: You will learn: 'Botanical greys' (shadow tones), over and underlay colour, texture, achieving depth, rendering smooth colour and much more. You will be painting a green or faded/dried leaf, a small smooth subject and a small textured or patterned subject.
- Lesson 3: You will paint a final small chosen subject of your own choice. We will practice all the techniques learned in lesson 2.

You will be added to a dedicated hidden Student Group page on Facebook where you can watch the pre-recorded video tutorials which demonstrate my painting method and show you useful techniques. These are not linked to the subjects you will be painting but I will guide you at every step of the way with appraisals and helpful tuition. There are no deadlines, you can work in your own time.

These techniques learned on this fine detailing and finishing course will give you the skills to produce a perfect small final painting at the end of the course. You will take a lot of knowledge with you. You will receive friendly, helpful guidance and appraisals at every step.

A Materials List will be supplied before you begin the course.
